

 NIROLO
Professional Displays B.V.

The back of the laptop features a row of five ports, each with a protective cap and a label above it: VGA, AUDIO COM, LAN, USB, and POWER. The ports are arranged horizontally. Above the ports, there are two labels: a small white label on the left with technical specifications and a larger white label on the right with the Nirolo logo and contact information. The Nirolo logo is also visible in the top right corner of the laptop's back panel.
