

NEW generation of maritime Olorin monitors in the classic form factor.

Olorin's new MAV main board platform

9V to 36V

Olorin's new monitors can be connected with 9V to 36V, making them much more versatile for configurations with different DC setups.

Command & Control

Olorin's new lineup of monitors have support for RS232 command & control for easier adjustment of the dimming and settings.

HDMI & DisplayPort

The VLDxx9 lineup of monitors have support for modern video standards such as HDMI and DP, along with legacy inputs such as DVI, VGA and CVBS (BNC).

Fully featured maritime monitors with dimming and optional sunlight readable filter

Dimming

Olorin monitors are fully dimmable, this means that they keep the contrast when you decrease the brightness from 100 to 0%, keeping the helmsman's vision intact during complete darkness.

Sunlight readable

The monitors can be fitted with a Sunlight Readable filter, a polarizing screen layer which makes the monitors fully readable in strong sunlight, making important information always clearly visible.

Touch panel

Interactive touch screens are a common tool in our everyday life, Olorin monitors are designed to be easily customized with multi touch for environments where there's no room for a keyboard or mouse.

External OSD

External control for OSD and dimming, connected via RJ45 or RS232. Perfect solution for remote adjustments of monitors. Olorin's high end models have GPIO for software integration.

Mounting frames

Olorin offers a variety of mounting solutions, such as flush mounting, These are prepared with external OSD for dimming. Olorin also offers mounting arms and solid base units that can be fitted on a table or in the ceiling.

Crystal clear imaging

Olorin strive for high quality imaging and as such, use high end VA and IPS displays to secure your work environment. Olorin's 27" and 55" monitors have a color depth of 1.07 Billion, which means reliable clarity.

Picture by Picture

Olorin 27" and 55" monitors with Ultra HD resolution can output a total of four inputs at the same time with Picture in Picture. These models are also very versatile with Zoom and Profile functionality.

Varied input options

The world is going digital and Olorin is no exception, we offer advanced video monitors with DVI, DisplayPort but also CVBS (BNC) and S-video (Mini DIN) for legacy systems.

Olorin VLD249

24" Monitor with Dimming

- 24" monitor with 1920 x 1080 resolution
- Dimming for night time operation
- Multiple video inputs for a variety of equipment

Specification

LCD Panel	Backlight Type	WLED
	Screen Technology	AMVA3
	Surface Treatment	Antiglare, Hard coating (3H)
	Screen Size, Diagonal	24.0"
	Screen Size, H/V	531.36 × 298.89 mm
	Aspect Ratio	16:9
	Resolution	1920 x 1080, FHD
	Color Depth	16.7M, 72% NTSC
	Contrast Ratio	5000:1 (Typ.) TM
	Luminance	300 cd/m ² (Typ.)
	Viewing Angles	178 / 178 (Typ.)
	Response Time	25 ms (Typ.)
	Refresh Rate	60 Hz
Display Modes	Temperature	Cool, Neutral, Warm, User

Audio	Audio Input	Phone Jack 3.5mm x 1
	Speakers	2W x 2
Power	Power Input Type	External adapter
	Power Input Rating	100-240Vac, 1.8A, 50-60 Hz
	Adapter Power Output Rating	12V 4.5 A
	DC Input	9V~36V
	DC Connector	4 Pin
	Power consumption	Full Brightness: 30W Power Saving: 2.5W

Olorin VLD249 is designed for specialists in maritime and other demanding environments where rugged equipment is of the utmost importance.

Excellent image quality

Olorin VLD249 features a standard Full HD resolution which makes it compatible with the majority of hardware out there.

Connectivity

Olorin VLD249 has multiple video inputs for users who want to get the most out of their monitor. It supports DisplayPort, HDMI, DVI and analog inputs such as VGA and CVBS. The monitor can also be connected to Olorin's external OSD for dimming.

Suitable for demanding environments

The monitor has a rugged construction and optional protective glass in order to be used in working environments such as maritime. Olorin VLD249 features a dimmable backlight, to make sure the operator can work even in complete darkness on the sea without having the monitor's contrast being compromised.

Mechanical	Dimensions w/o Base Unit	582.07 x 350.07 x 62.5 mm

Olorin VLG240 is designed for specialists in maritime and other demanding environments where rugged equipment is of the utmost importance.

Excellent image quality

Olorin VLG240 features a standard Full HD resolution which makes it compatible with the majority of hardware out there. The monitor's wide viewing angles makes it easier for several operators to view the same image at once.

Connectivity

Olorin VLG240 has multiple video inputs for users who want to get the most out of their monitor. It supports HDMI, DisplayPort, VGA and DVI. The monitor can also be connected to Olorin's external OSD for dimming, and via RS-232 for serial communication and control.

Suitable for demanding environments

The monitor has an aluminum casing and protective glass in order to be used in working environments such as maritime. Olorin VLG240 features a dimmable backlight, to make sure the operator can work even in complete darkness on the sea without having the monitor's contrast being compromised.

The monitor's VESA mount can be used to attach it to lots of different arms and base units, making the Olorin VLG240 very versatile.

	USB Downstream	USB Type A x 2
	USB Upstream	USB Type B x 1

Olorin ML270G is designed for specialists, with its high resolution 4K display and excellent color reproduction it is suitable for demanding applications, such as on the bridge of a fishing vessel.

Excellent image quality

Olorin ML270G features a standard 4K UHD resolution suitable for working environments. The monitor's wide viewing angles makes it easier for multiple operators to see the same image without distortions and its deep color reproduction should satisfy any professional.

Dimming

The monitor features a dimmable backlight, to make sure the operator can work even in complete darkness on the sea without having the monitor's contrast be compromised.

Connectivity

Olorin ML270G's has multiple video inputs for users who want to get the most out of their monitor. The monitor supports 4x DVI, 2x DisplayPort and 1x VGA.

Picture-in-Picture, Picture-by-Picture and Picture-on-Picture is supported so that you can show multiple sources at the same time. For easy operation, you can use a one button solution to switch between different inputs and PiP modes. If you have multiple uses for the monitor, you can also save different profiles to its memory and quickly load for a variety of applications.

The monitor also supports Olorin's External OSD for remote control.
